COMPUTER SCIENCE STUDENT

I'm a recent Computer Science graduate from the University of Cyprus with a passion for problem-solving and software development. My thesis focused on creating an AI-based tool to analyze GDPR compliance in cloud privacy policies, showcasing my ability to tackle complex technical challenges. Skilled in Java, C, and C++, I'm now expanding my expertise in Python and web development by building personal projects and a professional portfolio. I'm actively seeking a software engineering role where I can contribute to innovative solutions while continuing to grow as a developer.

KEY COMPETENCIES

Problem-Solving	Communication & Collaboration	C/C++ Programming
Java Programming	SQL and Database Management	Continuous Learning

EDUCATION

University of Cyprus

Bachelor in Computer Science
Expected Graduation: February 2025

Thesis: AI-Based Tool for Privacy Policy Compliance on Cloud Providers
Developed an AI-powered tool to assess privacy policy compliance with GDPR regulations. The project involves creating Python scripts for web crawling, auto-labeling compliance indicators, and testing model performance using machine learning techniques.
Grade: 9/10

Cambridge IGCSE

English
Completed: 2018

PROFESSIONAL EXPERIENCE

COMMERCIAL CREDIT MANAGEMENT LTD   **Sep 2023 - Jul 2024**
Manager Assistant
During my final year at university, I worked as a part time employee at Commercial Credit Management Ltd, I supported the staff by managing tasks for five months. My responsibilities included sending emails, coordinating communications, and assisting with daily operations to ensure smooth workflow. Subsequently, my company undertook the task of updating client details for the National Bank of Greece (Cyprus). Over the course of five months, I engaged directly with clients, addressing their complaints, assisting them with inquiries, and updating their personal and account information.

MASTERMIND SHIPMANAGEMENT LTD   **Jun 2023- July 2023**
IT Intern

During my internship my role involved diagnosing and resolving technical issues, ensuring the smooth operation of IT systems, and supporting the company's digital infrastructure.

Accomplishments:

- Technical Support: Provided effective troubleshooting and resolution of technical issues, ensuring the smooth operation of IT systems.
- System Maintenance: Conducted regular system maintenance and updates, contributing to the stability and security of the company's digital infrastructure.
- Collaboration: Worked closely with the IT team to support various projects, demonstrating strong teamwork and communication skills.
- Learning and Adaptability: Quickly adapted to new technologies and processes, showcasing a commitment to continuous learning and professional growth.
